A SCRUM BOOK
By The Scrum Patterns Group

Product

How do you start?
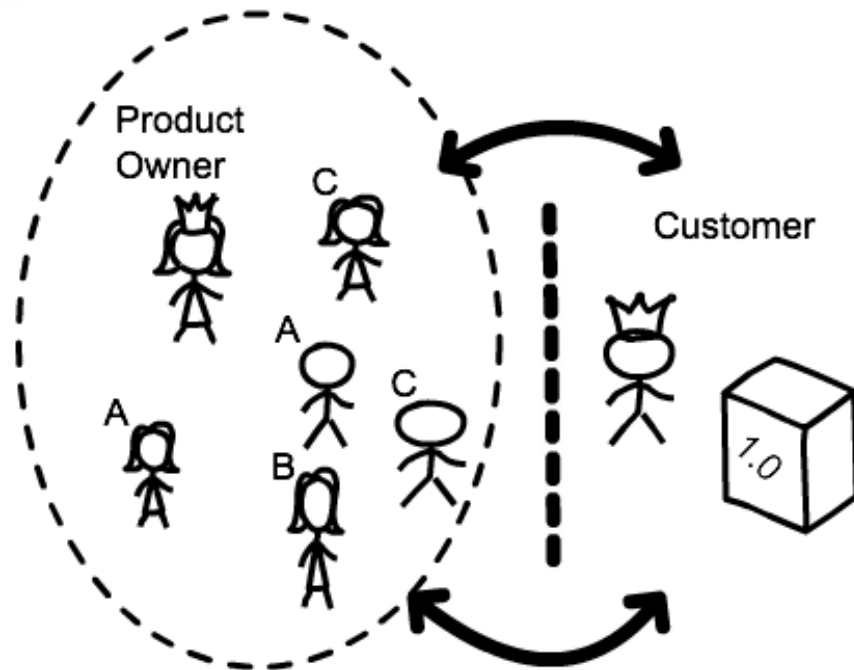

Create A High Performing **Scrum Team**

How do you grow one team?

***Mitosis**: Add people to your team and split.*

How to handle a big opportunity?

*Add a new team with support of a **Leading Team***

How do you organise the teams?

Use Feature teams and beware of **Conway's Law**

How to handle cross-cutting concerns?

*People form into communities of **Birds of a Feather***

How to focus on the whole product?

*All Teams work off a single **Product Backlog***

How to identify dependencies?

Have multi-team **Sprint Planning** and Refinements

How to keep all teams aligned?

*All Teams work in 1 **Sprint Pulse***
How to coordinate during the Sprint?

*Emerging Self coordination with **Scrum of Scrums***

How to keep transparency?

*Work according to a single **Definition of Done***

How can you plan across all the teams?

__Aggregate Velocities__ of all the Teams

How to evaluate progress?

AgiliX CONSULTING

*By a single **Product Increment** and **Sprint Review***

How to deal with systemic problems?

*Hold a **Meta-Scrum** to align stakeholders*

How to keep focus on features?

*Specialise the team along **Value Areas***

How can the **PO** do all the work?

Product Owner Team with expert per _Value Area_

How to descale your organisation?

AgiliX CONSULTING

*Spit into separate products with **Value Stream Fork***

Thank You!
